

# 36<sup>th</sup> Annual Awards Nomination Form

**Irish Concrete Society**

**The Irish Concrete Society will again make an award for excellence in design or construction of a completed building, structure or concrete element, irrespective of type, scale or complexity, in concrete.**

The Award Scheme is organised to enable the Society to acknowledge construction achievements in which concrete, in any form, contributes significantly to the built environment. Entries relating to the contribution made by concrete to any aspect of building, civil engineering, architecture, art or landscaping will be accepted by the Society.

Entries are subdivided into three categories:

- *Building*
- *Infrastructure*
- *Element* (housing or small projects e.g. walls, stairs, paving)

There will be one overall winner chosen, with category winners in the other sections, depending on the level and quality of entries.

The jury will consider awarding special recognition for the use of concrete in a sustainable context. Nominations should include a brief description of the contribution of concrete in this regard.

The adjudication will be carried out by an independent jury convened by the Council of the Society.

Nominations for the Award may be made by clients, Architects, Consulting Engineers, Material Suppliers, Contractors or others directly involved with the project. Nominations must refer to **completed work, located in Ireland, which commenced after January 2014.**

Note: Entries submitted for the previous year's award may remain eligible for this year's scheme if they meet the requirements of the above commencement date. A new nomination form and photographs must be submitted.

Reasons for nomination (describing excellence) together with a brief description of the project **must** be included with your entry. As a guide, 250 words minimum.

**Entries will be selected by the jury for display at the Awards Evening. A minimum of four high quality printed photographs must be submitted together with digital versions (Jpeg format preferred). As a guide, photographs should be a minimum 150dpi with file sizes 1.5MB file size or greater. These photos, which will be retained by the Society, will be used to help the jury form initial impressions on the merits of the entry and may also be mounted for public display on the Awards Evening or used for promotional purposes.**

Completed forms must be returned to the Society at the address below before the closing date of **Friday 20<sup>th</sup> of October 2017.**

Additional forms may be downloaded from [www.concrete.ie](http://www.concrete.ie)
